

## Overview

The purpose of HidePrice module is to hide price and add to cart button for customer group on the basis of selected criteria. This module is supported with multi-website and can be managed from admin panel by admin users. Admin users can change hide price scope (like for all, category specific or product specific), can show text message instead of price and hide for specific customer group from configuration anytime.

### Business Value

The main usage of this extension is to hide price and add to cart button from customer to prevent buy product for selected customer group or selected categories or specific products store wise.

## Features List

- Admin can enable/disable module from admin panel.
- Admin can change hide price criteria
- Admin can show text message instead of price
- Admin can manage hide price store wise

### How Does The Extension Work?

Selected hide price criteria will hide price and add to cart button from product page on the basis of matched condition for selected customer group and customer will not be able to see price and add to cart button.

## **Benefits**

For Store Owner and Customer:

- If store owner enable hide price module, customer will not able to see price and add to cart button.
